

Billy Bishop/Kerrisdale (B.C./Yukon No. 176)

July 1<sup>st</sup> 2021

## **FROM COVID-19 POLICY TO COMMUNICABLE DISEASE PREVENTION TRANSITION NOTICE**

Branch #176 will slowly transition from Covid-19 policy to Communicable Disease Prevention following WorkSafe B.C. Guidelines. These guidelines are posted and will be distributed to all members by E mail.

Until the transition is complete the Branch will follow the current in place policies with exception noted below.

We will adapt the following new Current health directives now that allow up to 10 people per group where possible. The health directives still require staying seated and no mingling between tables.

The Communicable Disease Prevention Guidelines include the Caveat that there is still risk involved in Covid-19 and other communicable diseases that may arise from time to time or on a seasonal basis. This may occur at a local or regional level or within certain workplaces. Thus due diligence in prevention is paramount.
